

FREE Maths & English qualifications for parents

JM Ret is launching an exciting community based project across the Liverpool City Region (Liverpool, Wirral, Knowsley, Sefton, Halton, St Helens) with the main goal of helping parents to support their children with their homework. A recent survey found that:

- **Two thirds of parents admit that they cannot help their children with their homework.**
- **Four in ten parents admitted to feeling pressured and in competition with other parents.**
- **Half of the parents admitted to using google to find answers.***

Our FREE courses are specifically designed to improve parents' own skills and show them more about how children are taught in school, whilst working towards a nationally accredited Functional Skills certificate in maths or English. **(Edexcel)**

Each session will cover a core maths or English topic, consolidated by relevant key stage worksheets and SATS questions. Our tutors will also provide revision resources for children and advice on providing continuing support throughout their child's education.

This is a fantastic opportunity to learn in a friendly, relaxed environment with other adults supported by specialist tutors all for zero cost. Our course can improve the confidence and self-esteem of parents whilst in the long term improving their children's' development.

All parents' are welcome to attend classes, however to be eligible for a FREE qualification they must meet the following criteria:

- **Aged 19+**
- **Not achieved a C or above, or Level 2 in Maths or English**
- **EEA Resident for a minimum of 3 years**

If parents' do not meet the criteria but feel like they could benefit from these classes they are still welcome to attend and fund their own exam at a cost of £22.50.

We are currently offering the following to schools beginning September 2018. Due to high demand and funding the below slots are available on a first come first served basis so please contact us ASAP to confirm your preferred slot.

AUTUMN TERM: 15 Weeks [English Only - 15 slots available]

SPRING TERM: 15 Weeks [Maths Only - 10 slots available]

All we ask of schools is the continued use of a teaching room for 2-3 hours per week and to assist in promotion of the course to parents. Please contact us to book your time and start date via Jake@jmret.com and then we will send you a marketing pack (posters, letters etc.)

So what are you waiting for? Get your parents' and carers enrolled onto our FREE course today!

*Survey by Aviva 2015, 2000 participants.

*Minimum group of 5 parents required for the course to run.
