Year 5:	98.3%
Year 5/6	91.9%
Year 6:	97%

We all want our students to get a great education, and the building blocks for a great education begin with students coming to school each and every day. Missing school can have a major impact on a child's future – a student missing one day a fortnight will miss four full weeks by the end of the year. By Year 10 they'll have missed more than a year of school. There is no safe number of days for missing school – each day a student misses puts them behind, and can affect their educational outcomes. Coming to school every day, for the whole day, is vital. If your child must miss school, speak with your classroom teacher as early as possible. Parents can be fined for not sending students to school without an acceptable reason. If you're having attendance issues with your child, please let your classroom teacher know so we can work together to get your child to school every day.

ST Cleopas News

New from the White Rose team...

It's 1-Minute Maths!

White
Rose
Maths

Our new 1-Minute Maths app helps your pupils to build greater number confidence and fluency. It's all about targeted practice in engaging, one-minute chunks!

White rose maths

Please download this app as its fantastic for your child's maths basic skills. (A great game to use on your phone whilst out and about too!)

All you need to do is 1 minute a day and within weeks they will be making loads of progress. This should be seen as an additional homework task.

Let us know how the children get on.

First Aid for Mental Health (Children & Teenagers) for Parents

1 Day Course

Our First Aid for Mental Health training will teach you how to identify when your child or teenager might be experiencing a mental health concern, how to support them and guide them to get the help they need.

What is First Aid for Mental Health?

First Aid for Mental Health is a training program that teaches you how to help your child or teenager with their mental health. First Aid for Mental Health will help you to recognise common mental health issues and understand how to provide non-judgemental support, reassurance and guidance towards professional help. You will learn about different mental illnesses, their symptoms, causes, treatment options, first aid methods, and self-help strategies.

You will learn:

- ✓ About common mental health concerns and key factors that can affect children and teenagers.
- ✓ How to support children and teenagers by developing skills and knowledge to help you spot triggers and signs of mental health issues.
- ✓ The action principals of 'look, listen, link', how to utilise active listening skills and how to provide an empathic response.
- ✓ About stigma and discrimination related to mental health

This course is provided in collaboration by:

- Torus Foundation – see more <https://torusfoundation.org.uk/>
- Interface Enterprises – see more <https://www.interfaceenterprises.co.uk/>
